The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/714,097	Applicant(s) HARRIS, SCOTT C.	
	Examiner DANIEL I. WALSH	Art Unit 2887	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 February 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. Receipt is acknowledged of the IDS and Amendment received on 2-14-08 and 2-13-08, respectively. Currently, claims 18-19, 28-31, 48-51 are pending for examination in this action.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 18-19, 28-31, 48-51 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims recite that numerical information of the size of the barcode is determined without decoding of the barcode and that such numerical information is sent/displayed without decoding. The Examiner notes that the specification is silent to obtaining numerical information of the barcode sizes without decoding. Paragraph [0035] teaches reading the barcode to obtain a numerical value and fetching an image based on the read out numerical value (analogous to a URL/pointer to a remote location barcode). This is interpreted as reading the barcode to obtain numerical information, such reading out of a value from a barcode being interpreted as decoding. It is unclear how a barcode can have a numerical value read out therefrom, unless the barcode is read/decoded. The original specification fails to provide support

for obtaining the numerical information as claimed, without decoding. Reading out values from a barcode is interpreted as decoding, as is conventional in the art.

3. Appropriate correction is required.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 18-19, 28-31, 48-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear how a numerical value is read from a barcode unless the barcode is read/decoded.

6. Appropriate clarification/correction is required.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (See PTO-892).

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
